SOURCE OF POWER

SYSTEM DEFENCE

POWERFUL AND EFFECTIVE

They have a firing speed of 350-370 m/s, are suitable for all terrains, and compensated spring system. A reinforced high-strength barrel. It's suitably sized for single-hand and tactical shooting we have especially attached a universal Picatinny rail for the user to attach any accessory they want.

We have designed the pistols with a double-sided magazine catch providing right- and left-hand usage.
